I feel no pain
I walk right through
A no where man
Learned from you

You get the one that you wished for You laugh to cry
I guess the one that you wished for Has made you cry

I told you, some way So quick to rename Isolated

My grip is good I fall to stand A smile that could Screams out a plan

You get the one that you wished for You laugh to cry
I guess the one that you wished for Has made you cry

I told you, someway So quick to rename You're weary, no soul So quick to rename

[Incomprehensible]

I told you, some way So quick to rename You're weary, no soul So quick to rename

Isolated, isolated Isolated, isolated Isolated
