

Stand Up (summer Song)

Skrape

This fades into all that you say
Up in, it's all mine
A virgin to the sound of today
We all shine

Stand up, stretch your mind
We're living in a summer song
Breakout, don't taste fine
We're living in a summer song

This burns in my thoughts for today
A frame of mind
A picture in the sunlight and shade
Alive we live life

Stand up, stretch your mind
We're living in a summer song
Breakout, don't taste fine
We're living in a summer song

Sunlight
Sunlight

Stand up, stretch your mind
We're living in a summer song
Breakout, don't taste fine
We're living in a summer song

My summer song
My summer song
My summer song
My summer song
