

## Sunshine

Skrape

Outside it's freezing  
Inside it's cold  
No one to keep me warm  
My bones are old  
All day the cold stays  
And someday I won't wait

Sunshine inject my mind warm me

I can't feel my hands

Sunshine inject my mind warm me

I sit around and watch the snow  
I see the sun come out then go  
I wish this really was not so  
But falling down on the ice  
Means it's melting slow

Sunshine inject my mind warm me
