

Up The Dose

Skrape

Give it back, give it back, give it back to me
Let it go, let it go, let it go through me
I can't show you [Incomprehensible] me
Here I come, here I come, are you ready for me?

I want to forget just how you feel
This is what I need to make this real

Up the dose, you know I do, you know I do, get it
Up the dose, I will, I will
Up the dose, the never ending dose
And I'll get higher and higher

Break away, break away, break away from me
I'm a feign, I'm a feign, I'm a feign to me
My reaction is what's keeping me
Dirty me, I can see, are you ready for me?

I want to forget just how you feel
This is what I need to make this real

Up the dose, you know I do, you know I do, get it
Up the dose, I will, I will
Up the dose, the never ending dose
And I'll get higher and higher

Up the dose, the never ending dose
Higher and higher
Up the dose, the never ending dose
Higher and higher
And I'll get higher and higher, higher and higher
And I'll get higher and higher, up the dose
