

As Life Bleeds Away

Skrewdriver

Out there on the fields, where battles are fought
There lies a million soldiers dying, in a war in which they've
been caught
But back home in the government where the traitors dwell
With thoughts of profit, no ideals, they'll send you somewhere,
pretty much like hell

-

(chorus)

As life bleeds away, as life bleeds away
As life bleeds away, but the soldier tried
As life bleeds away, as life bleeds away
As life bleeds away, so does a nation's pride

-

In a war fought for profit, in a war fought for greed
Life, it costs nothing, it's just another mouth to feed
In a war fought against a brother, in a war from which we're su
ffering still
A continent still mourns her children, in a war in which White
Pride was killed
