## **Justice**

## Skrewdriver

My knees feel weak as I'm dragged from the dock My poor mother's screams numb me with shock One by one, they lock us all away Trumped up charges is the game they play

## Chorus:

Call that justice, well it just ain't fair, How much longer before you care Call that justice from an alien judge Jailed for fighting for the land you love

Stripped in a cell, you're shackled in chains Lost all your dignity, but trying to keep sane A degrading regime if you speak your mind If you don't agree they'll give you time

(Repeat Chorus)

Call this democracy, the land of free speech Equality and freedom is what they preach Here's the reality, an alien state Locking up patriots behind camp gates

(Repeat Chorus)

Jailed for fighting for the land you love Jailed for fighting for the land you love
