## **Race And Nation**

Skrewdriver

I believe in the White race A race apart, we've got a mile start I believe in my country It's where I belong, it's where I'll stay

Chorus: For my race and nation Race and nation Race and nation Race and nation

This old nation's in the hand of fools Using people as political tools If you stand up and you say that they're wrong They'll put you inside, and say that's where you belong

(Repeat Chorus)

Something's got to change right now The White race is going down and how I'm not trying to depress you Because I believe, we're going to pull through

(Repeat Chorus) x2
