

# Stranger

Skrillex

Here in the dark I can see where you are  
I see so clearly  
The beat of my heart just stops and starts  
Whenever you're near me  
I just gotta thank you, all the love I gave you  
Came and you took it all away  
And now there is no pain, there's everything to gain here  
Now that I'm lost I think I'll stay

In hell, there's comfort in these flames and I don't feel the pain  
In hell, I'll forget your name here, you'll become a stranger (Become a stranger)

I'll forget your name here, you'll become a stranger

(You'll become a stranger)

I'll forget your name here, you'll become a stranger

(You'll become a stranger)
