

Like A Fox

Skull Fist

Running through the wild
Hiding in the night
He's comin after me
A siren heading forward
Gotta get away
Can't take my freedom
And now I'm always running
Have a little fun
But I gotta get away

Now I'm trying
I know that's all I've got
And I'm hiding
Hiding like a fox

Had to make a stand
They try to take away
My peace of freedom
Gotta give it all you got
Don't let them take you down
