

# I Can Dream

Skunk Anansie

I'll be your sailor girl  
I'll tip my cap to your parade  
Life won't be dreary no  
I'll be the waves inside your bed

Pain is your beauty  
It hurts the vision in our eyes  
Your eyes are smiling now  
They watch me cry, they watch me die, watch me die

I can dream, I can dream  
I can dream that I'm someone else  
I can love, I can love  
I can love - whoa - love someone else  
My saviour, my darling

Your eyes seep through me  
You think you hate the way I mince  
I'm screwing your dreams now  
So cynical at your expense

Oh what a sacrifice  
All of my dreams will melt away  
Oh So who's so special now  
No one's more special, more than me, more than me

I can dream, I can dream  
I can dream that I'm someone else  
I can love, I can love  
I can love - whoa - love someone else  
I can dream, I can dream  
I can dream that I'm someone else  
I can love, I can love  
I can love - whoa - love someone else

My saviour, my saviour, my darling, my darling  
My saviour, my saviour, my darling, my darling  
I can dream, I can dream  
I can dream, I can dream  
I can love, I can love  
I can love, I can love

I can dream, I can dream  
I can dream that I'm someone else  
I can love, I can love  
I can love - whoa - love someone else

I can dream, I can dream  
I can dream that I'm someone else  
I can love, love, love, I can love, love, love  
I can love - whoa - love someone else

I can dream, I can love, love, love  
I can dream I can love, love, love

My darling, my saviour  
I can dream

My darling  
I can dream that I'm someone else  
My saviour
