

We Don't Need Who You Think You Are

Skunk Anansie

Succulent white
Secrete revenge
God gives right

For you with your laws
You kill and dine
In cold sublime

God licks your face

We don't need
Who you are (3x)
We don't need
Who you think you are

Cute nigga views
in sweet terrain
Choke it blind

So lame tourist news
Step back in time
Grieving minds

God licks your face
Just like your dog
Just like your dog

Starve the minds and drain the face
Segregate shit nigga race
Cry for credible debate
But now them blackies legislate

Starve the minds and drain the face
Segregate shit nigger race
Cry for credible debate
But now them blackies legislate
So leave for anglo-aussie shores
There you'll find your heaven
As we all start again
