

# Without You

Skunk Anansie

Wake me up before the dawn  
There's a shivering inside my craving bones  
Shaking off my darkest thoughts  
There's a brand new day to ruin to the call

I fall down  
I can't get by without you  
I can't get by without you  
You're all that I can feel

It's you inside of me  
I can't get by without you  
Can't get by without you  
And memory cuts too deep  
It's you inside of me

I walk out to face the rhythm  
There's a beating in my heart  
I need to end

I fall down  
I can't get by without you  
Can't get by without you  
You're all that I can feel

It's you inside of me  
I can't get by without you  
Can't get by without you  
The memory cuts too deep

It's you inside of me  
Can't get by

All that I need  
You're all that I need  
You're all that I need  
You're all

I can't get by without you  
I can't get by without you  
You're all that I can feel  
It's you inside of me

Can't get by without you  
Can't get by without you  
And memory cuts too deep  
You inside of me

Can't get by without you  
You're all that I need  
Can't get by without you  
You're all that I need  
You're all that I can feel  
You're all that I need  
You inside of me  
You're all that I need
