

Ghost

Sky Ferreira

I'm not irrational
I'm just no longer in the day dream
Of the delusion that
Once was hard between our love it seems
Lately I've been between
Being steady or a head case
What's become of us now
Hanging our hearts in disgrace

[Chorus:]
What did I do to make you so cruel
I've got this ache inside my heart
I know that it's you
What should I do now that
I know that we're doomed
I loved you most
And now you're a ghost
I walk right through

Oh remember when you said
That I was sick inside the head
I'm just half way there
My common sense hanging by a thread
I'm bad on the outside
But a coward at heart
The taste of salt in my mouth
My voice is silent
But my thoughts are right

[Chorus x2:]
What did I do to make you so cruel
I've got this ache inside my heart
I know that it's you
What should I do now that
I know that we're doomed
I loved you most
And now you're a ghost
I walk right through
