

You wait by the phone, my eyes to your throne  
It's what you, what you want from me  
It what you, what you want from me  
Pretend that I'm shy, I laugh when you cry  
It's what they, what they want from me  
It's what they, what they want from me  
Try to teach me a lesson  
I'll keep, I'll keep you guessing  
Oh I will (I will)  
I will (I will)  
I will (I will)  
I will  
When it's with me your messing  
I'm gonna teach you a lesson  
Oh I will  
I will (I will)  
I will (I will)  
I will  
I kiss like I lie, you wait for a sign  
It's what you, what you want from me  
Left you dumb, Left you damned  
Left you limp in your hands  
It's what you, what you want from me  
Try to teach me a lesson  
I'll keep, I'll keep you guessing  
Oh I will (I will)  
I will (I will)  
I will (I will)  
I will  
When it's with me your messing  
I'm gonna teach you a lesson  
Oh I will  
I will (I will)  
I will (I will)  
I will
