

# Love in Stereo

Sky Ferreira

Every time, I tell myself again that he just wants to be my friend

I can't keep up  
He's locked inside my head  
But he just wants to be my friend

It's always just stay  
It's always just stay  
Never just go  
Never just go

It's always just stay  
It's always just stay  
Never just go  
Never just go

We fell in love in stereo  
Then he broke my heart in stereo  
We fell in love in stereo  
Then he broke my heart in stereo

When he picked me up  
What was his intent,  
Just to let me down again?

I'll survive,  
But how could I forget  
All the things we did back then

It's always just stay  
It's always just stay  
Never just go  
Never just go

It's always just stay  
It's always just stay  
Never just go  
Never just go

We fell in love in stereo  
Then he broke my heart in stereo  
We fell in love in stereo  
Then he broke my heart in stereo
