## Traces

You were just a boy With an appetite Hate it when you leave stains in my bed I know I should've read All the warning signs But I fell for all your white lies again

Nothing you do, no nothing you say Is gonna take the damage away Oh, nothing you do, no nothing you say Is gonna take the bruises away

You've bit bit bitten off You've bit bit bit bitten off More than you can chew I I'm getting rid of you I I'm get get get getting rid of Get get get getting rid of traces of Traces, the traces, the traces of you

I was just a girl, in the fantasy Dreamin that you would be good for me But now I see your greed Now that I bleed This time I'm gonna go set you free

Nothing you do, no nothing you say Is gonna take the damage away Oh, nothing you do, no nothing you say Is gonna take the bruises away

You've bit bit bitten off You've bit bit bit bitten off More than you can chew I I'm getting rid of you I I'm get get get getting rid of Get get get getting rid of traces of Traces, the traces, the traces of you

Ate my heart in every way, Ate my heart in every way Lockin the cage Starin at you I'll stray Can't get your way today

You've bit bit bitten off You've bit bit bit bitten off More than you can chew I I'm getting rid of you I I'm get get get getting rid of Get get get getting rid of traces of Traces, the traces, the traces of you Get get get getting rid of Get get get getting rid of traces of Traces, the traces, the traces of you Get get get getting rid of Get get get getting rid of

## **Sky Ferreira**

Traces, the traces, the traces of you Get get get getting rid of Get get get getting rid of traces of Traces, the traces, the traces of you
