## Alaska

I was on the road Despite the holiday The wintergreen daydream softly collided And took all my headaches away

[Chorus:] When did I arrive I don't recall ever leaving alaska Why do I hate the dark when I'm alone I was on my way To a brighter day I'm still chasing around But somehow I believe that this is home It's so good to be home

I was on the ground When I recalled the day That my discomposure left me forever And swept all my troubles away

[Chorus]
