

# Captains Of The Sky

## Sky Sailing

Mid-air, I woke up beneath the flight deck  
On a wallpaper airplane  
As you stared, I strapped my helmet on  
And left your driveway behind

Flutter all through the night  
And we can pull the clouds around this paper hanger sky-light  
Summer smile again, and you can disappear  
But I'd rather be here

Dive bomb, we descended down the staircase  
And crashed to the kitchen floor  
So long, our flight of dowdy dreams  
Preened our soft-paper wings

Flutter all through the night  
And we can pull the clouds around this paper hanger sky-light  
Summer smile again, and you can disappear  
But I'd rather be here

Hello down there, the mooring made of sailors in the air  
Keeping the midnight stars held high  
We are captains of the sky  
Waving goodbye
