

Give It Time

Skye Sweetnam

Another moment
Just like the moment before
You count the hours
And wonder can you take anymore?

You close your eyes
And suddenly you're dreamin'
But you can't hide
From the loneliness you're feelin'

If you ever wonder when
You will ever love again
Give it time (Give it time)
When your Heart aches
all that it takes is time
No hurry, don't worry
You can have all your hoping to find
Our Love will come back to you
If you give it time

Outside it's raining
Feels like it's raining for you, oh oh
The radio is playing
One more love song for two

You close your eyes (you close your eyes)
and fall into a memory
And Fantasize (And fantasize)
Will you always be alone?

If you ever wonder when
You will ever love again
Give it time (Give it time)
When your Heart aches
All that it takes is time
No hurry, don't worry
You can help all your hoping to find
Our Love will come back to you
If you give it time

Sometimes everythin you need
Is right before your eyes

If you Ever Wonder when
You will ever love again
Give it time (Give it time)
When your Heart aches
All that it takes is time
No hurry, don't worry
You can help all your hoping to find
Love will come back to you
Let it come back to you
Love will come back to you
If you give it time (time, time, time)
(ti-i-i-me)
