

# Number One

Skye Sweetnam

I saw my boyfriend hanging with this girl that I hate  
He didn't have to tell me why last night he was late  
I can't believe what you tell me  
Your lies have come undone  
Now I'm living on the run looking out for number one

I took a ride to the city  
Had to get out of this place  
I just can't stand the pity  
When the tears fall down my face  
I used to think it was over  
But its only just begun  
Now I'm living on the run looking out for number one

One day you'll see me but only when your dreaming  
One day you'll say I was the one  
I hitched a ride on a Greyhound stashed away on a train  
Bought a ticket for the subway  
Playin' guitar in the rain  
I want to follow Rivers to an island in the sun  
Now I'm living on the run looking out for number one

One day you'll see me but only when your dreaming  
One day you'll say I was the one  
Late at night trying to fight  
I just might think about him  
Right now I'm feeling fine  
I'm better off without him ya!  
One day you'll see me but only when your dreaming  
One day you'll say I was the one  
I know that one day you'll see me  
I'll haunt you when your dreaming  
One day you'll say I was the one  
I'm number one
