

Real life

Skye Sweetnam

Yeah Yeah Yeah Yeah

I feel them looking down on me, Or am I paranoid
No where to hide no room to breathe
I'm like a flower in the shade, I'm like bird in a cage

I wanna Real Life, I just wanna feel life
gettin tired of livin in a bubble wanna get in trouble
Gotta be my own self, I can be nobody else
and if I could only make one wish
I just wanna live a Real Life, a Real Life

Inside your castle in the sky, I'm just a prisoner
Sometimes I wish I could kiss it all goodbye
I try to please you, but don't I matter too

I wanna Real Life, I just wanna feel life
gettin tired of livin in a bubble wanna get in trouble
Gotta be my own self, I can be nobody else
and if I could only make one wish
I just wanna live a Real Life, a Real Life

I'm just a simple girl, in a complicated world
I've given it my best, but I'm in over my head

I wanna Real Life, I just wanna feel life
gettin tired of livin in a bubble wanna get in trouble
Gotta be my own self, I can be nobody else
and if I could only make one wish
I just wanna live a Real Life, a Real Life
