

## Cellar Door

Skylar Grey

Cellar door what's the use  
Cellar door are you open to find me  
Iron ore shields remorse  
When i look, i look to your beautiful name  
And find you're not the same

Cellar door what's the case  
Are you locked in your shadow's embrace  
Do you feel so insane  
That you don't, you don't want to show me your face  
But i, i can relate

Holding on, to everything, that makes us bleed

Overflowing underneath my pretty face  
With the presence of the haste  
Now they're sayin don't believe anything  
But i do believe i know you

Cellar dooroligist  
Your therapy is the one i love best  
You give me strength to confess  
That i, i will not last very long  
So soon, i'll be gone

Oh these walls, know everything, and i'm tired of being lost in  
side

Overflowing underneath my pretty face  
With the presence of the haste  
Now they're sayin don't believe anything  
But i do believe i know you

Love will come to me and i will not remain  
Hover over these confused contaminated veins  
Love will come to me and i will not remain  
Hover over these confused contaminated veins  
Hey ya hey ya, hey ya hey ya
