

# Glow in the Dark

Skylar Grey

[Intro]

I've got it, yeah I've got it, yeah I've got it

[Verse 1]

I've got a fire in me  
There's so much I have to see  
From where I was before  
To how far I've yet to go

[Pre-Chorus]

I'm gonna raise my hands  
Gonna take a stand  
Gonna turn my voice up loud

[Chorus]

I'm glow in the dark now  
Glow in the dark now, now, now  
I'm glow in the dark now  
Glow in the dark now, now, now, now

(I've got it, now, now, now, now, I've got it, yeah I've got it  
, I've got it)

[Verse 2]

I've got a fire in me  
It's so bright I can't believe  
I was ever scared before of things  
I could not control

[Pre-Chorus]

[Chorus]

[Bridge]

Strange light, follow as it burns  
Strange life, of unexpected turns  
You fight on and even if you fall...  
You get back up again

[Chorus]

I'm glow in the dark now (Some hearts you'll never win)  
Glow in the dark now, now, now (And some pain never ends)  
I'm low in the dark now (But these are the shoe's you're walkin'  
' in)  
Glow in the dark now, now, now, now (So just get back up again)  
Now, now, now (just get back up again)
