We Used to Be Bad

Skylar Grey

Tall grass is where my tribe is hiding out Can we pretend that it flew Straight enough to land on the fairway And it won't hurt now

We used to be bad like that But it felt right burning through our daddys' cash And our mama's cigarettes We used to be bad like that In the good old days oh if we only knew back then That's the best it's gonna get

It's been years Since we have gotten high enough Starting to feel like I am drying up So let's drink the whole thing before I turn to stone

We used to be bad like that But it felt right burning through our daddy's cash And our mama's cigarettes We used to be bad like that In the good old days oh if we only knew back then That's the best it's gonna get

How can you live if guilt is twisted around It's all I've tried Life is too short to feel constricted When all we do is that

Tall grass I'm just so tired of playing by The rules
