

Among The Clouds

Skylark

White Warrior?

Yeah, I'm here!

This is the time to realize
This is the way to go
Riding The Ivory Stormwind
I will penetrate the fog

We'll never find the answers
To the eternal fire
The wizard knocks to my heart

'Cause I just want to meet some angels
'Cause we don't want to lose the truth

Captured by the dark
The Battle is going to start
Don't you be afraid? We stay among the stars

So trust in me and you will see, over the
rainbow, our God can fill our dreams
The Cross will sign the prophecy while we are
fighting among the clouds

I want to know the Holy Ghost
I'll stick to my magic gun
Music is guiding my adventure
Mankind is needing God

We really want to do it
It will be so easy
This melody is a winner

This is the last day in which we find
The Endless power of our love
