

Staying Alive

Skyline

Everyone of us can reason mystery somewhere inside
We stand uncertainly now we're realizing the ring I was tried
Repeating the same mistakes over and over again
In such of something will be sight of freedom again

Staying alive
With the soul mate
Who you believe
Try staying alive
For someone you believe

People cause you by my sight, some of them find the way to stay
There's no more tears, no more being lonely on the way
We choose the direction on which we book other guides
Now we stand uncertainly I'm realizing the ring I was tried
There are no questions only answers we can get
Things we discovered we can never ever forget

Staying alive
With the soul mate
Who you believe
Try staying alive
For someone you believe

Staying alive
With the soul mate
Who you believe
Try staying alive
For someone you believe

Staying, staying alive
Staying, staying alive
Staying, staying alive
Staying alive

Staying alive
With the soul mate
Who you believe
Try staying alive
For someone you believe

Staying alive
With the soul mate
Who you believe
Try staying alive
For someone you believe
