I can see you here but don't worry
with you hair down in your eyes and you say hi
I had to come back without due warning
now I caught you making love I'll say goodbye
[chorus]
bye bye, bye bye, I just want you to say goodbye
bye bye, bye bye, I just want you to say goodbye
I can see you cry out I'm sorry
blow your nose and wipe your eyes and you'll know why
I had to come back without due warning
now I'll pack my things and then I'll say goodbye
