

Harmony in my life
There ain't noting in this great big world
You care about
There ain't noting in this world
That I can't do without.
Oh it's gotta be me
Oh it's gotta be me
I can change you
Rearrange you wait and see
I believe in everything you say and do
Is there anything you say that may be true
No more second chance your choice is overdue
Oh it's gotta be me
Oh it's gotta be me
I can change you
Rearrange you
Wait and see
Harmony in my life
There ain't noting in this great big world
You care about
There ain't noting in this world
That I can't do without.
The attention you receive goes to your head
You'd be better off believing me instead
If you leave me is it something that I said
Oh it's gotta be me
Oh it's gotta be me
I can change you
Rearrange you
Wait and see
Harmony in my life
There ain't noting in this great big world
You care about
There ain't noting in this world
