

# In Like a Shot from My Gun

Slade

In like a shot from my gun  
Chasing the truth you know is gonna come  
Let it, you know I begun

You haven't got a good face  
I'll never notice when I start to race  
It's something you got it in space

Chorus  
And it's in like a shot from my gun  
In like a shot from my gun  
In like a shot from my gun  
From my gun

Break

In like a shot to taste you  
Just you react the way you always do  
I know that you changed quite a few

Chorus  
And it's in like a shot from my gun  
In like a shot from my gun  
In like a shot from my gun  
From my gun

Break

Chorus  
And it's in like a shot from my gun  
In like a shot from my gun  
In like a shot from my gun  
From my gun

From my gun
