

# It's Your Body Not Your Mind

Slade

I want your body not your mind

Her education made her top of the class  
All the lessons she learned, English Language and Maths  
An' she knew when the teacher's makin' a pass  
'Cos in Biology she knew all of the Facts

Her schoolgirl uniform stands out in a crowd  
An' the way that it fits her should not be allowed  
She's workin' hard to get an A grade  
She's got it made ... yeah, yeh yeh, yeah

Chorus

'Cos it's your body not your mind, babe (body not your mind)  
No intellectual brain (it's your body not your mind)  
Yes it's your body not your mind, babe (body not your mind)  
It's gonna drive me insane ... drive me insane (drive me insane)

She's takin' everybody's mind off their books  
With her hand in the air an' her innocent looks  
I try to help her, I put ink in my pen  
She keeps turnin' me down, again an' again

She's only sweet sixteen an' never been kissed  
I wanna give her, ooh, what she's missed  
She's always showin' off her I.Q.  
To psych you ... yeh, yeh yeh, yeah

Chorus

'Cos it's your body not your mind, babe (body not your mind)  
No intellectual brain (it's your body not your mind)  
Oh, it's your body not your mind, babe (body not your mind)  
It's gonna drive me insane ... drive me insane (drive me insane)

You can read, you can write  
You can tell all the stories you heard, babe  
You can read, you can write  
You can spell all the four-lettered words, babe

Her schoolgirl uniform stands out in a crowd  
The way that it fits her should not be allowed  
She's always showin' off her I.Q.  
To psych you ... yeah, yeh, yeah, yeah

... I'm gonna tell you about it now

Chorus

It's your body not your mind, babe (body not your mind)  
No intellectual brain (it's your body not your mind)  
Yeah, it's your body not your mind, babe (body not your mind)

It's gonna drive me insane (drive me insane)

Well it's your body not your mind, babe (body not your mind)

I want your body not your mind (it's your body not your mind)

I want your body not your mind, babe (body not your mind)

It's gonna drive me insane ... drive me insane ... drive me insane (drive me insane)

I want your body, body ... body, body ... body, body ...

body, body ... body, body

... body, body ... body, body ... body, body ... body, body ...
