Lightning Never Strikes Twice

Lightning never strikes twice lightning never strikes twice Lightning never strikes me twice in one place From an electric cloud to an electric cloud Lightning take me for a ride into space Saw a fast fallen star I saw a fast fallen star Saw the twisted candle melting aways Heard a rooster crow I heard a new day grow Saw a sign that said way out in a maze Who did slip me de fin - I don't know where to begin to come do พท Who did slip me de trip - It ain't hip I need a grip or I'll dr own From an eternity to an eternity I crossed the universe and want ed to stav Passed through infinite time I passed through infinite time, saw creation from the opposite way Who did slip me de fin - I don't know where to begin to come do wn Who did slip me de trip - It ain't hip I need a grip or I'll dr own Lightning never strikes twice lightning never strikes twice Lightning never strikes me twice in one place And I drove in my car to catch a fast rising star Many who are gonna sink without trace Heard a rooster crow heard a new day grow Saw the sign that said way out in a maze From an eternity to an eternity I was born again but still in a daze Who did slip me de fin - I don't know where to begin to come do พท Who did slip me de trip - It ain't hip I need a grip or I'll dr own Who did slip me de fin - I don't know where to begin to come do wn Who did slip me de trip - It ain't hip I need a grip or I'll dr own Yeah yeah
