

Look at Last Nite

Slade

Look at last night, look at last night
Everyone trying to know you
Never did try, ever did try
Everyone trying to know you
You'll be right here today, gone tomorrow
Maybe they'll care today, but not tomorrow

Do you feel good? Do you feel good?
Everyone trying to meet you
Can you tell why? Do you know why?
Suddenly, how they treat you
You'll be right here today, gone tomorrow
Maybe they'll care today, but not tomorrow

La, lala lala lalalala, la lala la lalala
La, lala lala lalalala, la lala la lalala

Look at last night, look at last night
All of the things have changed you
Do you know why? Look how they try
Do you realise they made you?
You'll be right here today, gone tomorrow
Maybe they'll care today, but not tomorrow

Look at last night, look at last night
Everyone trying to know you
Never did try, ever did try
Everyone trying to know you
La, lala lala lalalala, la lala la lalala
La, lala lala lalalala, la lala la lalala

Look at last night, look at last night
Oh, oh, oh
Look at last night, look at last night
Oh
