

Not Tonight Josephine

Slade

Not tonight, Josephine - don't be so mean - I like the way that
you do

But now I got a date with the Duke

Not tonight, Josephine - don't be so mean - I stand on my heels
for you

But now I got a date at Waterloo

I want a welcome home, a welcome home

I want a welcome home, a welcome home

I want a welcome home, when I come home again

I want a welcome home, a welcome home

A welcome home, a welcome home

A welcome home, when I come home again

Not tonight-a Cleopatra, you know what I'm after, but wait until
I get back home

Now I got a date in Rome

Not tonight Guinevere, you whisper in my ear, you're ready willing
and able

But now I got a date at the table

I want a welcome home, a welcome home

I want a welcome home, a welcome home

I want a welcome home, when I come home again

I want a welcome home, a welcome home

A welcome home, a welcome home

A welcome home, when I come home again

Go little Queenie.....

You're gonna get it tonight - You're gonna get it tonight

You're gonna get it tonight - You're gonna get it tonight at home

You're gonna be the Queen of the ball

Tonight's the night for Josephine, for Cleopatra, Guinevere, at home

You're gonna be the Queen of the ball

So keep it safe, keep it warm, don'tcha let it stray,

A little bit lovin' goes a long long way
(indecipherable and probably rather rude)
