

## Pouk Hill

Slade

Did you see us  
We were there, standing there, with our arms in the air  
Did you see us  
Did you see us  
We were there, standing still, and the temperature was nil  
Did you see us  
Stood in a line  
Dick took a shot and he got us  
And he got us

Did you help us  
Sympathize with us  
Please help me  
Pouk Hill is tall, always will be  
Pouk Hill is older than you and me  
Than you and me

You passed us by, not a second glance  
Bluer than blue  
We were froze' to the bone, couldn't wait to be home  
In the firelight  
We were warm there  
As we sat by the fire, getting higher and higher  
Really cruel there  
Stood in a line  
Dick took a shot and he got us  
And he got us

Did you help us  
Pretty size us  
Please help me  
Pouk Hill is tall, always will be  
Pouk Hill is older than you and me  
Than you and me
