

Run Runaway

Slade

I love black and white
we need black and white
and you like black and white
Run run away

See a chameleon
laying there in the sun
All things to everyone
Run run away

If you're in the swing
all here in everything
If you're in the swing
Run run away

See a chameleon
laying there in the sun
All things to everyone
Run run away

If you've got a crush
don't be around the bush
When I've got a crush
Run run away

See a chameleon
laying there in the sun
All things to everyone
Run run away

All night can't you win
now go on and win
All night can't you win
Run run away

See a chameleon
laying there in the sun
All things to everyone
Run run away

Run run away
Run run away
Run run away
