

She did it to me

Slade

1. Anytime you feel like you're down
Anytime you want a friend around
Cos I knew that soon we'd fall
Everyday has said it all
And I've landed with my two feet on the ground

R: She can read in your eyes
All the truths, all the lies
She did it to me, she did it to me
She can read how you're made
In the light, in the shade
She did it to me, she did it to me

2. Anytime you fell like a pain
Anytime you want to talk again
Cos I knew you that soon we'd dry
Everyday will tell you why
And for old times sake we'll meet up in the rain

Cos I knew you hadn't planned
Everyday so understand
When you're tires of sugar dad will I be here

R: She can read in your eyes...
