

Sign of the Times

Slade

Mondays there's been some changes in my life
A supersonic return flight
It's a sign of the times

Mondays we've seen a man up on the moon
The 21st century's coming soon
It's a sign of the times

Chorus
Turn on the radio
Turn on to VHF on your stereo
Turn on the TV show
In multi-colour 625 video
These are the TV times
These are the radio times

Mondays beware big brother in 84
Test tube babes are being born
It's a sign of the times

Lazy days, we leave the 70's far behind
For close encounters of every kind
It's a sign of the times

Chorus
Turn on the radio
Turn on to VHF on your stereo
Turn on the TV show
In multi-colour 625 video
It's the computer age
Now it's the silicon place

Returning to base
From a day out in space
Will be easy I know

And when all said and done half way up to the sun
We'll be all systems go
Say hello to the Mondays

Chorus
Turn on the radio
Turn on to VHF on your stereo
Turn on the TV show
In multi-colour 625 video
These are the TV times
These are the radio times

It's a sign of the times
It's a sign of the times
A sign of the times
It's a sign of the times
