

Take Me Back 'ome

Slade

Oha, Came up to you one night
Noticed the look in your eye
I saw you was on your own
And it was alright
Yeh it was alright

They said I could call you Sidney
Oh I couldn't make out why
Standing here on your own
And it was alright
Yeh it was alright

So wan't you take me back home
A take me back home
And if we can find plenty to do
And that will be alright yeh it will be alright yeh
Ha
You and your bottle of brandy
Both of you smell the same
You're still on your feet still standing
So it was alright
Yeh it was alright

The superman comes to meet you
Looks twice the size of me
I didn't stay round to say good night
So won't you take me back home
A take me back home
If we can find plenty to do
And it will be alright yeh
And it will be alright yeh

So won't you take me back home my baby
Ah won't you take me back home yeh
I said take me take me tak me
Take me back home
Take me, take me, take me,
Take me back home
I love you, I want you
A what you gonna do when you take me back home
What you, what you gonna do
A what you, what you, what you,
What you, what you gonna do
Alright yeah, It will be alright now
