

## Show The Way

Snapshot

We've gotta show the way to fight them  
Gotta show the way show we're strong  
Show the way live our lives  
Show the way  
Won't belong - no!  
You don't have to hear us  
You could miss the point  
You don't have to be there  
You could watch it go on  
You don't have to listen  
But if you you I'll be there  
We gotta show the way keep our minds  
Gotta show the way to live right  
Show the way staying free  
Show the way it's in sight - yes!  
You don't have to hear us  
You could miss the point  
You don't have to be there  
You could watch it go on  
You don't have to listen  
But if you you I'll be there  
Show the way
