

## Crooked

Slapstick

On the corner there's a bunch of people livin cause they haven'  
t got a place to stay  
The president can't see them no he doesn't give a fuck  
And their anger grows and grows each day

Well I can see the government is putting on a show  
I can see right through it, it's fuckin crooked to the bone  
It's a time bomb

Somewhere in a factory there's a little guy working off his bal  
ls for the minimum wage  
While the big guys sits around just standing in his office maki  
ng money on his ass all day

Well I can see right through it, and it's crooked to the bone  
It's a fuckin time bomb fuckin ready to explode  
It's a time bomb

Unity's the answer and we gotta join together  
Cause it's gettin harder every day  
Start a revolution, tell those fuckers in power  
To get the fuck out of our way  
Well I can see right through it, and it's crooked to the bone  
I can see right through it, it's fuckin crooked to the bone  
It's a time bomb  
It's gonna be a time bomb
