

Girls

I got the boy whipped, flipped  
Think's I'm God's gift  
With some porn style, sweet smile, out a while, I'm working it  
Credit cards and fancy cars  
I'm spending, pretending, this dream is neverending  
Got him wrapped tight, like a vice  
My hardworking man, has me living the life  
Here he comes now  
HEY BABY!

You're dissin' me, I never show it  
But you're always getting into my head, dismissin' me  
I let you do it but you're doin' it  
In front of my friends

I'm not your doormat, I'm the leader of a kick-you  
When you're down on crusade, I'm not a part of that  
I hear the rumors, goin' round that I'm not that man

I'm tired of playin' dumb  
I'm tired of being pushed around  
And if you think that I'm goin' soft  
Here come some hard times

I got one mean bone in my body  
I got one mean bone in my hand

You are a parasite, you latched on  
And now I'm up to my neck in pain  
All we do is fight, you bitch and moan so much  
I think I need a hearing aid

My love won't overcome  
The way you put me down  
And if you think that I'm goin' soft  
Here come some hard times

I got one mean bone in my body  
I got one mean bone in my hand
