

## Dirty Little Thing

Slash

Can't stop thinkin musta been trippin this evening  
My mind is racing demons and all of my feelings are  
numb

Yeah and when I roll with my head in the wind  
And I feel like the king of the  
Dead men wishin they had gotten together with you girl  
But you're a dirty little liar with a message of  
obsession to come

Youve got your head in the clouds and your world's  
upside down  
Get away from the life you're living  
Get away from the man that's stealing your life  
Get away from the drugs you're taking  
Get away from the film of sex in your life

Can't stop drinking I'm cold kicking and bleeding  
The wine is numbing feelings and all of my memories are  
gone

Yeah and when I roll with my head in the wind  
And I feel like the king of the  
Dead men wishin they had gotten together with you girl  
But you're a dirty little liar with a message of  
obsession to come

Youve got your head in the clouds and your world's  
upside down  
Get away from the life you're living  
Get away from the man that's stealing your life  
Get away from the drugs you're taking  
Get away from the film of sex in your life

Youve got your head in the clouds and your world's  
upside down  
Get away from the life you're living  
Get away from the man that's stealing your life  
Get away from the drugs you're taking  
Get away from the film of sex in your life
