Kill the ghost  
That hides in your soul  
Rock 'n' Roll  
Rock 'n' Roll  
Rock 'n' Roll

Wipe the blood from your Halo  
open wound that you hide your shadow's pride  
Spit in the face of the ugly clown  
Who'll hunt you down  
But you can't hide  
Exterminate the future

Kill the ghost  
That hides in your soul  
Rock 'n' Roll  
Kill the ghost  
That hides in your soul  
Rock 'n' Roll

Whispers of the future  
Broken meth in your skull  
with a hook in your smile  
Exterminate the future

Kill the ghost  
That hides in your soul

Kill the ghost  
That hides in your soul

You can't run from the future  
You can't change the past  
You're not that fast

You can't run from the future  
You can't change the past  
Not that fast

Kill the ghost  
That hides in your soul

Kill the ghost  
That hides in your soul

Kill the ghost  
That hides in your soul
