

Sugar Cane

Slash

Love and decay, love out of time
But my lady's straight, she keeps me in line
Alchemy of her charm
Made me weak from the start

Baby so bitter the fallout
Baby so sour the taste
But when she gives in I'm not too proud to say
She's sweet as sugar cane
She's sweet as sugar cane

What can be said, what can be done
She's losing a head but I know what's to come
She will smile, I will break
She's not the type to be tamed

Baby so bitter the fallout
Baby so sour the taste
But when she gives in I'm not too proud to say
She's sweet as sugar cane

Yeah yeah

She always knows
The card she holds
Will pull me close
And keep me in the lane

Baby so bitter the fallout
Baby so sour the taste
But when she gives in I'm not too proud to say

Baby so bitter the fallout
Baby so sour the taste
But when she gives in I'm not too proud to say
She's sweet as sugar
She's sweet as sugar cane

Sweet as sugar cane
She's sweet as sugar cane
My baby sugar cane
