

# World on Fire

Slash

Well they say that we are tragic and they say we're born to lose  
You're the misfit, I'm the sinner, you're the heathen, I'm the fool  
But today you'll be the master or the slave, it's up to you  
Or my beautiful disaster take me anywhere you choose

Don't fight it, ignite it  
This much I'm sure

I think it's time to set this world on fire  
I think it's time to push it to the edge  
Burn it to the ground and trip the wire  
You may never be this good again

It's like a new religion speaking tongues come see the light  
Do not trip on inhibitions that will only waste my time  
Let me tempt you with the evils of the flesh and so much more  
Like a Babylon redeemer, like a pusher, like a whore

Just try it, you'll like it  
I'll give you more

I think it's time to set this world on fire  
I think it's time to push it to the edge  
Burn it to the ground and trip the wire  
You may never be this good again

It's so dark, I can't see  
All the truth inside us  
All I want is to feel something that's real before the end

Close the door  
Turn the key  
Do you like  
What you see

Kill the lights  
Oh come to me  
Set it off tonight  
Baby just like fire on gasoline

I think it's time to set this world on fire  
I think it's time to push it to the edge  
I'm so fuckin' bored so trip the wire  
You may never be this good again

Just trip the wire  
This world's on fire  
Just trip the wire  
You may never be this good again
