

## Can We Find A Way

Slaughter

Whatever happened to our innocence  
I'm gonna find a quiet place inside  
All I wanna do is break down the wall between us  
And put an end to this foolish pride

Don't ya hear by message of love  
Don't ya know it comes from above  
Can we find a way to shine an inner light  
Can we find a way to make it work out right

We should meditate a higher conscious  
Listen in peace, in peace and harmony  
All I wanna do, all I wanna do  
Is brighten your darkest days

So do you hear my message of love  
Don't ya know it comes from above  
Can we find a way to shine an inner light  
Can we find a way to make it work out right  
Can we find a way to let it shine, let it shine  
Can we find a way to intensify your mind

I'll take your pain away and give you all of me  
I'll let you in my world unconditionally  
I see you in my dreams smiling in my mind  
Whispering my name, let it shine, let it shine
