

Hard Times

Slaughter

As seen through my eyes, it's tougher all over
You can read it in the news of the world
Been shot down in flames by a face with no name
The image of truth is unheard of
It's hard to take it
So will you make it
You start to wonder

And now you're goin' through
Hard Times
You're goin' through Hard
Times no one can deny
You're goin' through
Hard Times
Look around you it's
Hard Times

So now you learn from the concrete and pavement
It's hard to see through city lies
Ironical it seems all the sweet talk and dreams
Have turned to the things you despise.
It's hard to take it
So will you make it
You start to wonder

And now you're goin' through
Hard Times
You're goin' through Hard
Times no one can deny
You're goin' through
Hard Times
Look around you it's
Hard Times

It's hard to take it
So will you make it
You start to wonder

And now you're goin' through
Hard Times
You're goin' through Hard
Times no one can deny
You're goin' through
Hard Times
Look around you it's
Hard Times
