

## Real Love

Slaughter

I lie awake in the morning light  
No one to hold  
Another sleepless night  
'Cause it's over now that you've left me  
Oh so lonely

Oh, I hear it calling  
Oh, I hear it calling

Real love won't somebody show me  
Real love isn't anyone true anymore  
Real love won't somebody show me  
Real love where are you

All through my life I've been feelin' down  
Searchin' to find  
I'm lost and not found  
There's gotta be someone  
Someone who understands me

Oh, I hear it calling  
Oh, I hear it calling

Real love won't somebody show me  
Real love isn't anyone true anymore  
Real love won't somebody show me  
Real love where are you

Oh, I hear it calling  
Oh, can't you hear it calling

Real love won't somebody show me  
Real love isn't anyone true anymore  
Real love won't somebody show me  
Real love where are you
