

Revolution

Slaughter

I make a living and you suck it dry
Get away with murder with no alibi

You don't see it
You think the sky is fallin down
You don't feel it
Have you been living underground?

We stand, We fight, Unite

the media says it so I guess it's true
Majority rules so forget your view

You don't hear it
There's shouting all around the town
You don't know it
They plan to take away the crown

Witness now I say you can't let them push
you around

Revolution
Revolution

We stand, We fight
We stand, We fight

I don't want to listen to your corporate lies
Ain't never gonna quit till I'm satisfied

Witness now I say you can't let them take you away

Revolution
Revolution
