

## Shake This Place

Slaughter

Ya know I'm headin' on out  
Gonna take a little ride on the town  
With my 350 runnin' hot  
Nothing's gonna bring me down  
I look over and over to make sure the man's not on my trail  
So, I put my foot on the gas--hammer down to the nail

Ya know the weekend has arrived  
Got a six gun at my side  
We're gonna shake this place  
'Cause that's the way we want it  
Shake this place when you're goin' too far  
Shake this place, gonna push it to the limit  
And we're never gonna stop

You know my juices start flowin' and the good times start to roll  
I've got my mind wide open and I'm gonna stick around for more  
I look over my shoulder, let me tell ya what I did see (uh-huh)  
Two of the opposite sex, hot and nasty lookin' at me

Ya know the weekend has arrived  
Got a six gun at my side  
We're gonna shake this place  
'Cause that's the way we want it  
Shake this place when you're goin' too far  
Shake this place, gonna push it to the limit  
And we're never gonna stop

I see the sun comin' up, put the sunglasses on my eyes  
I'm gonna stay up through the day 'til the day turns back into night

Ya know the weekend has arrived  
Got a six gun at my side  
We're gonna shake this place  
'Cause that's the way we want it  
Shake this place when you're goin' too far  
Shake this place, gonna push it to the limit  
And we're never gonna stop
